## Program

Chad Mason from WETA (has to do with the ferry system, not Women for Ethical Treatment of Animals as Walt suggested) talked to the club about the Mare Island Ferry Service.

Chad runs the North Bay Maintenance Operations.

Chad showed us the plans to move the current operation to its new location about ½ mile south of the current location. The new location will allow for fuel storage and passenger loading. Currently, the boats have to be fueled daily by fuel trucks.

Having the ability to store fuel will allow the ferry service to get bulk pricing and not have to pay for daily delivery service.

Passengers will also be able to board from the new location, something that isn't currently available.
