Lori's agency is contracted with all the School districts in Solano County except for Vallejo.

They have their own office but mostly travel to see the children at school or at home.

She does developmental screening and social and mental evaluations, also IPA testing for children who might have a learning disability.

They have a staff of 52 people and are part of the First 5 Solano, they offer 7 different types of programs for families and there is no charge for their services. They put on many fundraisers, one of which is the annual Turkey Trott fun run that is on Thanksgiving day.

She also gave kudos to Helen for Medic helping them every year.

She told us a story of a 4 year boy who witnessed a very bad fight with his Mom and Dad and the Dad was taken away in handcuffs. It traumatized the boy so much that he did not speak after that. She worked with him for 2 months and finally got him to speak and now the boy is doing great and just won a national essay contest.

Lori also touched on the sexual trafficking that is very bad right now here in Solano County, the major hubs are San Francisco and Sacramento.
